RE: EX PARTE NOTICE – CS 98-120, MB 03-15

Dear Ms. Dortch:

On behalf of Capitol Broadcasting Company, Inc. (CBC), I met individually with Stacy Robinson Fuller of Commissioner Kathleen Abernathy's office, Johanna Mikes Shelton of Commissioner Jonathan Adelstein's office, and Jordan Goldstein of Commissioner Michael Copps' office on February 3, 2004. As reflected in the attached documents, we discussed the technical requirements for the delivery of all full-power broadcast digital stations via Direct Broadcast Satellite.

We disclaimed that we are not advocating the common platform plan outlined in this filing, but that we are merely using it as an example of the combination of technologies that enable the delivery of all full-power broadcast digital stations via Direct Broadcast Satellite. We also disclaimed orally that although all of these technologies are available today or will be available during calendar year 2004, considerable lead time is required to launch satellites using this technology, as well as the phasing out of legacy set-top boxes.

If there are questions relating to this filing, please contact the undersigned.

Best regards,

/s/ Dianne Smith
